Jason Yap

Oviedo, FL | jason-yap@outlook.com | just-anotherday.github.io/yappotamus

Education

University of Central Florida, *Bachelor of Computer Science* 2023-Present

Relevant Coursework: Senior Design, Artificial Intelligence, Object-Oriented Software Development, Computer Architecture, Bioinformatics Algorithms

Valencia College, *Associate of Arts* 2021-2023

Projects

SlimeScraper Summer 2025

- Developed rogue-like FPS in Unity with procedural generation for dynamic gameplay
- Implemented core player mechanics, enemy AI behavior, and modular room design
- Earned Most Technical Game Award for innovative design and system integration

myUCF Class Scheduler | Full-Stack MERN Application Spring 2024

- Developed full-stack application with MongoDB, Express, React, and Node
- Designed RESTful API and middleware to support scalable backend functionality

Experience

UNIVERSITY OF CENTRAL FLORIDA| IDESIGN Spring 2026

- Supported senior design teams by providing technical feedback, and mentorship
- Improved completion consistency through technical review and structured feedback

US ARMY | FORT BRAGG | CBRN SPECALIST 2017 - 2021

- Developed procedural workflow for hazard detection, mitigation and technical operation
- Awarded Army Achievement Medal for exception performance and reliability

T-MOBILE | NEW YORK CITY | SALES LEAD 2015-2017

- Troubleshoot complex device and network issues following technical process

Skills

- Programming: Java, C, Python, C# (Unity), JavaScript
- Strengths: Problem Solving, Leadership, Adaptability, Team Collaboration
